### INDIAN RIVER RIPPLES.

Paragraphs Personal and Newsy Briefs at Towns Along the Coast.

#### COCOA.

School closes next Tuesday.

Mr. J. W. Bruner and daughter Winnie, of Georgiana, paid a business trip to Cocoa on Monday.

Mr. J. A. Halsten has so far recovered from his recent illness as to be able to return to his duties with S. F. Travis & Co.

Mr. and Mrs. Wm. Hindle are off to Jacksonville to attend a meeting of the undertaker's association. They return Saturday.

Mr. E. C. Johnson is keeping up with the procession and the spirit of the times by putting up a fine residence for his interesting family.

Mr. Fred Fisher is recovering from his recent mishap. He has nursed a sore face and suffered much pain. It is lucky the accident was no worse.

Mr. and Mrs. Fred Aldrich and son, Mrs. F. Lipp, of Cocoa, and Mrs. Willford and son, of Rockledge, are enjoying an outing of ten days at Cocoa Beach.

Mr. S. Childs is getting material on the ground for the new brick building on his lot next east of the town hall. It will be occupied by the postoffice, it is reported.

"The exams" are the topic of conversation among the pupils at school, but when the sessions are over then it is to practice the cantata of "The Flowers" that all minds are turned.

Willard street is the scene of activity. With work progressing on the two new buildings and the busy pupils about the school and town hall, and with the arrival of the mails at the postoffice thrice a day, keeps the street lively.

Mr. and Mrs. A. O. Lapham have the sympathy of the entire community in the loss of their little baby boy. The little babe was ill about a week with dysentery when its little spirit took its flight on Thursday of last week. It was laid away in Cocoa cemetery on Friday. "Suffer little children to come unto me and forbid them not" is the command of the Saviour.

The report that Mr. Barnes Sanders, of Indianola, is very low with typhoid fever and that there are slim chances for his recovery has sobered the young people of Cocoa and vicinity, for they counted him as one among them. It is earnestly hoped that he may yet recover, as a patient can get very low with typhoid and yet with a strong constitution pull through, so there is much hope expressed.

The school entertainment promises to be unusually interesting this year. A large class graduates from the high school. Aside from the cantata, the primary department will give The Sleeping Beauty, and everyone knows how delightfully the little tots carry their parts. The exercises will be held in the opera house. The new scenery of the woods and garden will help materially with the scenic effect of the play and the cantata.

Cleanse your system of all impurities this month. Now is the time to take Hollister's Rocky Mountain Tea. It will keep you well all summer. 35 cents, tea or tablets.

Mr. Lockhart, who lives in that live summer resort, Frankfort, Mich., says that some of the tourists tell some awful big yarns about fishing in Florida waters, especially the Indian river, so while here he wanted to try his hand at rod and reel. One morning recently Mr. White rigged up his boat and fixed his lines, etc., and rowed him out to the beacon to let him woo the finny tribes. The wind was lashing the water into waves, but they went fishing. They were not there long before securing several good sized channel bass and then something took Mr. Lockhart's hook that made him attend strictly to business. He had just lost a big fish by drawing in too rapidly, so he thought he would "play" this one and he did—and the fish played too—he tugged away for an hour, but could not get it close enough to see what he had on his hook. He said "it must be a shark," and finally turned the pole over to Mr. White and he tugged for another hour. Finally they rowed toward the island shore into shallow water and Mr. White got into the water to pull it ashore. When towed into shallow water they saw they had a giant sting ray. They fastened a hook onto another pole and hooked it the second time and got it ashore and killed it, then brought it home. It measured six feet from tip of nose to end of tail and three feet two inches from tip to tip across. They guessed it weighed 100 lbs. Mr. Lockhart is now ready to believe all Florida fish stories. He carried the sting, which measured nearly seven inches, and the picture of the monster home with him to prove his story.

## Alabastine Your Walls

ALABASTINE produces exquisitely beautiful effects on walls and ceilings. Easy to apply, simply mix with cold water. Better than Kalsomine, Paint or Wall Paper. It is not a Kalsomine, it is a sanitary, permanent, cement coating, which hardens on the walls, destroying disease germs and vermin, never rubbing or scaling. Kalsomines mixed with hot or cold water soon rub and scale off, spoiling walls, clothing and furniture. They contain glue, which decays and nourishes the germs of deadly disease. For sale by
